## SUMMARY

AWS Solutions Architect (10+ years cloud experience), I help companies achieve transformation handling the Cloud to drive the process. I love to use DevOps to speed up IT (and the whole organisation) time-to-market. And I also like to code (node.js, c# and python mainly). Would like to join an innovative project that requires a driver.

## EXPERIENCE

- 2021 \* **NORDEA (Denmark).** Head of Cloud Adoption.  
Turning an Infrastructure team into a Customer Obsessed cloud delivery crew.
- 2019 **LEGO (Denmark).** AWS Enterprise Architect, Cloud Evangelist and Coder.  
As part of the Scheduling and Execution Team, define the AWS cloud strategy, roadmap and technologies to use on the short term (design and implemented a cloud solution for DATA integration between SAP and Preactor SIEMENS solution) and the long term (define how SAP data must be consumed by product teams - the YODA initiative).
- 2018 **Vueling Airlines.** Head of Enterprise Architecture / Cloud Advocate / AWS Evangelist.  
2019 Define vision, roadmap and best practices to succeed on Cloud Adoption and architect solutions for the cloud including DevSecOps workflows.
- 2017 **Schneider-Electric.** Enterprise Architect / AWS Solutions Architect.  
2018 In the process of "Going Cloud" that the company is carrying out, the definition of architectures, standards, DevOps models and project teams software architecting support.
- 2015 **Ontex Global.** AWS Solutions Architect.  
2016 Design and construction of an entirely serverless cloud CMS system. AWS API Gateway, Lambda (node), S3 and DynamoDB on the backend side. Xamarin for mobile apps (Android + iOS) and HTML/Ajax for CMS user interface implementation. Initial requirements analysis, solution design and software implementation.

**Invoicing.Services.** AWS Solutions Architect.  
Design and implementation of a free API any coder can use to create and host (AWS S3) invoices in PDF format.  
[invoicing.services](https://invoicing.services)
- 2008 **Axtia Technologies.** Founder and CEO.  
2015 Software Consultancy and SaaS Software Factory. Early Adopters of AWS Services stack (EC2, S3, SQS, DynamoDB, ServerLess).  
[www.wherereyougps.com](https://www.wherereyougps.com) GPS Tracking software with more than 5 million registered users.  
[www.mapme.net](https://www.mapme.net) Android app development calling .NET web services. HTML/Ajax and ASP.NET for backend user interface, Microsoft SQL Server for database on initial versions; Migrated to AWS DynamoDB (no-sql) on last application versions to manage high volume transactions.  
[www.thedigitalcatalog.com](https://www.thedigitalcatalog.com) Product showcase and sales order management solution.  
iOS mobile app (iPhone/iPad) calling .net web services. HTML/Ajax and SQL Server at backend for product and orders management. ETL workflows for Business Reports data load into MySQL.  
Software implementation and design tasks, product pricing strategy, marketing plans and team management.
- 2006 **Cap Gemini.** SAP CRM Consultant.  
2007 SAP CRM specialist consultant. Customer requirements analysis and blueprint definition. Project management.
- 2000 **Realtech.** SAP CRM and SAP Mobile Consultant.  
2006 SAP Mobile solutions expert. SAP CRM functional consultant. Implementation projects at companies such as Gas Natural, Heineken, Puleva or Campofrio.

## SKILLS

### INNOVATION ANALYSIS

Expertise in design and analysis of transformation and technological innovation processes.

### PROJECT MANAGEMENT

Capacity to manage, plan and transmit knowledge.  
Emphasis in User eXperience and customer requirements match.

## EDUCATION

### MASTER IN BUSINESS MANAGEMENT SOFTWARE SAP

2003 · Universitat Politècnica de Catalunya (UPC)

### COMPUTER SCIENCE AND ENGINEERING

1995-2000 · Universitat Politècnica de Catalunya (UPC)

### LYCÉE FRANÇAIS DE BARCELONE

1980-1994 · High School.

## TECHNICAL SKILLS

### SOFTWARE ARCHITECT

Software Design / Enterprise Cloud Architectures

### CODER

C# · Python · Java · Android · iOS  
HTML · Ajax · Javascript · Node · SQL · noSQL

### AWS SERVICES SPECIALIST (10+ years experience)

AWS Lambda · DynamoDB · API Gateway · SQS  
CloudFront · S3 · Cognito · SES · Route53 · RDS · Cloudwatch  
CodeX (CodeCommit, CodeBuild, CodePipeline, CodeDeploy)  
Blockchain Web Services Founder.

## GITHUBS (example)

<https://github.com/NachoColl/dotnet-cf4dotnet>

Automate AWS CF templates creation from your dotNET code.
