SUMMARY

AWS Enterprise Solutions Architect with more than 15 years of cloud experience, I help companies achieve transformation handling the Cloud to drive the process. I engage communication across various LOB to succeed and I'm passionate about the Agile way of working. And I love to code.

EXPERIENCE

- 2021 **NORDEA (Denmark).** Head of Cloud Adoption.
* Turning an Infrastructure team into a Customer Obsessed cloud delivery crew. Leading a team of engineers to define and provide the enterprise multicloud service offering. Implementing a Business Service approach improving the company "move to cloud" success count, FinOps excellence and cross-functional continuous improvements.
- 2019 **LEGO (Denmark).** AWS Enterprise Architect, Business Change Evangelist.
2021 Leading a set of LEGO business unit's cloud journey. As part of the Scheduling and Execution Team, I drove a cloud data middleware initiative to integrate SAP and Preactor SIEMENS solutions. Exploited the natural synergies of a set of business units and proposed, led, and delivered an API-oriented data lake integrating SAP data to be consumed by various product teams.
- 2019 **Vueling Airlines (Barcelona).** Head of Enterprise Architecture, AWS Solutions Architect.
2021 Launching VUELING Enterprise Architecture team. Defined the objectives, vision and roadmap for the cloud journey the company was initiating. Advised business units on Cloud Architecting best practices and IT teams on how to setup the service offering initially handled by the infrastructure team.
- 2017 **Schneider Electric (Barcelona).** Enterprise Architect, AWS Solutions Architect.
2018 As part of the Global Schneider Electric Cloud Center of Excellence, I helped the company setup cloud best practices, Serverless vs. Containers strategy and worked with product teams on how to architect for the cloud. I turned the company cloud adoption journey into a business driven and business value approach.
- 2015 **Ontex Global.** AWS Solutions Architect and Developer.
2016 Design and construction of an entirely serverless cloud CMS system. AWS API Gateway, Lambda (node), S3 and DynamoDB on the backend side. Xamarin for mobile apps (Android + iOS) and HTML/Ajax for CMS user interface implementation. Initial requirements analysis, solution design and software implementation.

- 2008 **Axtia Technologies.** Founder and CEO.
2015 Software Consultancy and SaaS Software Factory. Early adopter of AWS services stack (EC2, S3, SQS, DynamoDB)
www.mapme.net GPS Tracking software with more than 5 million registered users. Android app calling microservices. Microsoft SQL Server for database on initial versions; Migrated to EC2 and AWS DynamoDB (NoSql) to manage high volume transactions.
thedigitalcatalog.com Product showcase and sales order management solution. iOS App, SQL Server, Data Analytics.
- 2006 **Cap Gemini.** SAP CRM Consultant.
2007 SAP CRM specialist. Customer requirements analysis and blueprint definition. Project Management.
- 2000 **Realtech.** SAP CRM and SAP Mobile Consultant.
2006 SAP Mobile solutions expert. SAP CRM functional consultant at Gas Natural, Heineken, Puleva and Campofrio.
